

Explanatory Note

- This document presents the generic reference model based on seven WOH model veterinary certificates in the Terrestrial Animal Health Code and Aquatic Animal Health Code.
- This abstract model presents according to the UN/CEFACT SPS Standard required data elements (which are shown in black). Optional data elements have been shown in green.
- Orange data elements are not required in all seven WOH model certificates. The numbers to these data elements indicate in which certificates these required data elements are present.

- 1 Live animals and hatching eggs**
- 2 Oocytes, embryos or semen**
- 3 Products of animal origin**
- 4 Bees and brood combs**
- 5 Laboratory animals**
- 6 Live aquatic animals and gametes**
- 7 Products of aquatic animal origin**
